

**Last Updated: 11/26/24**

## 1. Data Collection

When you interact with Grow A GPT, your input (text you type) is temporarily stored for the following purposes:

- Facilitating real-time responses from the GPT.

- Improving the interaction during the session.

- Supporting the goals of this experiment (e.g., analyzing personality development, memory retention, and response behavior).

**Note:** Data is only stored within the session and is not saved or linked to your identity after the session ends unless explicitly stated in the consent form.

## 2. Data Usage

The data you provide is used exclusively to:

- Generate responses during your interaction with Grow A GPT.

- Analyze the GPT's ability to simulate learning, personality development, and adaptation (if part of the research study).

Your data will **not** be used for any marketing purposes, sold, or shared with third parties.

## 3. Data Retention

**Session Memory:** Data is stored temporarily during the session to allow the GPT to adapt to your input. Once the session ends, the data is automatically deleted unless you have provided consent for analysis

data may be retained for  
in the study's consent form.

Required by law (e.g., a legal request).

You have provided explicit consent for research purposes.

## **5. User Control**

You have the right to:

- End the session at any time.

- Request that your session data not be analyzed, if applicable.

- Withdraw from any research study involving this GPT at any point.

## **6. Security**

We take reasonable measures to protect the data you provide during your interactions, including:

- Encrypting data during transmission.

- Limiting data retention to session duration unless explicitly agreed upon.

## **7. Contact**

For questions or concerns about this Privacy Policy or how your data is used, please contact:
